Mainpine® RockForce™ Fax Boards Supported by ActFax Communication-Software GmbH

Popular Network Fax Server Works with RockForce™ Intelligent Fax Card Line — Providing Messaging Customers a Fast, Simple and Reliable Fax Hardware Option at an Affordable Price

PORTLAND, Oregon — April 11, 2006 — Mainpine® Inc., an innovator in the global intelligent fax hardware arena, and ActFax Communication-Software GmbH, an industry veteran and leader in network fax servers, announced today that ActFax (formerly ActiveFax Server) has been certified with Mainpine's RockForce™ intelligent fax board product line. ActFax and RockForce boards provide a winning combination ensuring that sending and receiving faxes is as simple and fast as printing a document on paper.

"We are pleased to offer our customers the option to incorporate Mainpine's fax hardware with their ActFax server," said Helmut Vogler, ActFax Communication-Software executive director. "Coupled with our fax server software, RockForce cards offer the right scalability for all types of companies looking for an easy-to-implement and cost-effective solution for their fax communications environments."

"We are excited to be able to work with ActFax – a widely popular network fax solution and industry veteran," said Lloyd Johnson, president and CEO of Mainpine, Inc. "ActFax Communication-Software's experience in fax messaging coupled with Mainpine's fax hardware creates a highly attractive option for organizations where speed and reliability are the name of the game."

About ActFax

Major companies from different business lines all over the world are customers and depend on ActFax. The client/server architecture allows a fast and simple integration of fax and email with Windows as well as other operating systems, like Unix, Linux, DOS or mainframes. The software also supports terminal server environments. Pricing is highly competitive, with a 5-user, unlimited ports version costing \$595 (USD) and \$1875 (USD) for unlimited users/ports. More information and a trial are available at:

ActFax is RockForce Certified

Mainpine demands its line of fax boards perform exceptionally well with fax software applications. Through rigorous stress testing, Mainpine has certified that ActFax is interoperable with the RockForce™ line of intelligent fax cards. Contact ActFax at office@actfax.com to obtain a copy of this report.

About ActFax Communication-Software GmbH

The main activity of ActFax Communication is the development and support of ActFax, one of the most powerful network fax solutions currently on the market. The high demand for fax solutions in heterogeneous environments initiated the company to develop a fax server that easily integrates with different environments, like Windows, DOS, Unix, Linux or mainframes.
